

The Consell de Formentera is pleased to report that the skate and fitness park on the Sant Francesc ring road will open to the public tomorrow at 8.00pm. Top-ranking local official Alejandra Ferrer was joined this morning by vice-president and seniors councillor Ana Juan; councillor of youth Vanessa Parellada; infrastructure coordinator Xicu Ribas; Casal de Joves director Carlos Calzado and representatives of local seniors clubs on a visit to the park and tour of the facilities.

The €482,723 park sits on a 2,727-m² lot and has assorted outdoor fitness structures and three skating circuits including a skating area, a “street” park and a “bowl”. There is also a wellness circuit for the elderly, landscaping and recreational areas.

Grand opening tomorrow

For World Skateboarding Day this week, the Casal de Joves has scheduled a skateboard-themed evening tomorrow from 8.00pm.

Youth chief Vanessa Parellada shared her satisfaction at being able to preside over the park’s opening — “scores of local youth have pressed for this for some time now”, she affirmed. The councillor pointed out that young people were a key part of the park’s design, offering feedback to ensure the new construction fit their needs.

Features

The 255-m² skating area is obstacle-free and hemmed in by a long bench which doubles as seating for park users and their companions.

The 238-m² “street” park features hand-polished concrete and characteristic obstacles like ramps, benches, platforms, handrails and ledges, often imitating street furniture found in parks and plazas.

The park's most eye-catching feature is its 617-m² "bowl". Cut into the ground-level upper platform, it is a pool-shaped hole with depths of -3.75m, -2m, -2.2m and -2.5m and radii of 2.4m, 2.8m, 3m, 3.3m and 2.4m. Surrounding it are landscaped green spaces, and the days ahead will see shaded areas, benches and a walking route incorporated as well.

Heart-healthy circuit for seniors

The 285-m² old people's fitness circuit and exercise machines will soon include a rest area.
