The Consell de Formentera wishes to remind islanders that businesses are only allowed to occupy public roads if they open a minimum of five months, 15 May to 15 October, as established by the local ordinance regulating occupation of public roads with terraces and other structures. This measure ensures a better service and extends the summer season, and aims to encourage businesses to open for more than five months. Permits to occupy public roads can be requested from the OAC and OVAC.
