The Formentera Office of Social Welfare is developing the Fourth Plan on Drugs, Screens and Games (2022-2025) with collaboration and support from the Health and Community Foundation (*Fundació Salut i Comunitat, FSC*). Islanders aged 18 and over can help ensure the process is participatory and realistic by completing a short, anonymous questionnaire
here
.

The Fourth Plan on Drugs, Screens and Games stems from a commitment to promote, coordinate and lead the response to health and social problems linked to substances, screens and games. Integrating initiatives and actions that range in scope from social and economic to educational and health-related, the Plan addresses drug use, screens and games through the lense of cross-cutting issues of inequality in areas like gender, cultural diversity and age.
