

This May, Formentera families interested in applying for a spot in the Sa Miranda nursery school can contact the Citizen Information Office of the Formentera Island Council, Monday through Saturday (from 9 am to 2 pm) to process all the required documentation.

The admissions and registration process opens 5 May and closes on 16 May. Upon conclusion of this process, the provisional list of admitted students will be published 5 June and, once all grievances have been attended, registration will be finalised between 23 and 25 June.

This year 40 spots are available for children in the first cycle of nursery education (from 0 to 3), four more than the previous academic course. To these available spaces, we must also take into account 32 children aged 1-2 and 8 newborns that already have spaces in Sa Miranda, which brings the total to 80 pupils, a figure which could later change according to the distribution of specific groups.

Once registration applications have been received, the school itself will be charged with distributing applicant students across different groups in the interest of finding spaces for the maximum number of children.

Spaces must be requested during the established period, providing documentation containing the child's date of birth along with other documents and requirements necessary to the evaluation process. We remind readers that the Sa Miranda school is dependent on the Formentera Council and meets all of the necessary requirements in order to operate as an educational centre providing the first cycle of nursery education.

EIP Sa Miranda (from the acronym for Escola Infantil i Primària) currently has on its staff nine educators and one teacher, and, as the sole public nursery school on the island, it gives an extremely comprehensive and flexible educational service, adapted to the learning needs of the population of Formentera.

Admission criteria

By law, the centre must reserve at least one spot in each group for students with special needs

in educational support and in situations of social/legal vulnerability.

When applications outnumber spaces available, they are scored and ordered by the centre's School Council according to the criteria established by the Regional Ministry of Education and Culture of the Balearic Islands. Priority criteria include: presence of other siblings already attending the school, family income, existing disabilities in the student, parent, legal guardian or other siblings.

Complementary criteria include: status as a single-parent family, cases of one-parent custody, the student's suffering a chronic disease, or presence of multiple-births siblings.

All of the relevant information can be consulted on the Council of Formentera's website at www.consellinsulardeformentera.cat, or by calling the Office of Education and Culture at 971.32.12.75.
