

The Formentera Office of Heritage is pleased to report that applications for the 2022 Consell de Formentera research grant will be accepted through 15 July. The €8,500 grant promotes scientific local research in the arts, humanities and social sciences.

Raquel Guasch, councillor of heritage, encouraged researchers to send in their applications. Last year's call for applications was withdrawn. "This grant has been cemented in recent years, not to mention given more funding, opening the door to further enrich local studies", said the councillor.

At the close of the application period, a committee will review submissions based on scientific interest, coherence and methodology, and the curricula vitae of researchers. Associated research work must be carried out within 12 months from the day following announcement of the award. Grants are awarded on a competitive basis and the rules have been published in the 4 June issue of Official Gazette of the Balearic Islands [*BOIB*].
