

Today the Formentera Office of Culture presented the fifteenth Festival of Children's Entertainment (Mostra d'Espectacles Infants). Organised by **Sa Xerxa Children's and Youth Theatre in the Balearic Islands and the Consell de Formentera**, the programme will bring four shows to Formentera between 14 and 16 January.

Susana Labrador, Councillor of Culture, described the Festival's focus as "continuing to offer local children and families quality theatre and culture, while supporting the industries of theatre and culture."

The kick-off comes **Friday 14 January** with two storytelling sessions: ***Contes per volar ben amunt*** and ***El vaixell vermell***. Both sessions are the handiwork of Llettra encantada, and co-creator Raquel de Manuel Mur leads each one. *Contes per volar ben amunt* showcases oral and corporal narration to tell ancient and reinvented stories and songs. Individuals at Formentera's adult day centre can enjoy the approximately 45-minute performance from 11.00am.

El vaixell vermell takes audiences on a journey across an ocean to a magical island. It is a workshop of co-creation, a bonfire around which songs, stories, laughs and illustrated albums are shared. The session features a captain and a group of sailors who boarded a ship and set sail in search of new shores. This all-ages show is free and starts at 5.00pm in the Sant Ferran library connection (Punt de Lectura), with a duration of 45 minutes.

The Festival will continue **Saturday 15 January** with L'Estaquirot Teatre's ***L'aventura d'avorrir-se***. This puppet show stars Rita, a little girl who, in spite of her many toys, is eternally bored and does not know how to play alone. But one day at grandma's house, with a simple rubber duck, Rita embarks on an adventure over the course of which her imagination will take her to the world of colours, and she will discover surprising characters... Recommended for all audiences, the 50-minute performance will take place at the Sala de Cultura (Cinema) from 6.00pm.

The Festival ends **Sunday 16 January** with ***Volen Volen***, the breakout dance and circus show by the company Mariantònia Oliver. Dance and circus merge to create a language without words, based on the manipulation of objects and movement. A warm choreographic game that

stirs children's emotions and enhances their creativity with balloons evoking the most important moments of childhood. The 35-minute show is recommended for ages three and up, and can be seen at the Sala de Cultura (Cinema) from 6.00pm.

Tickets

Saturday and Sunday performances are priced at 4 €. Tickets can be purchased on entradesformentera.cat where information will be available from Friday 7 January.

Due to the exceptional situation stemming from the COVID-19 crisis, admission to the 2022 Festival will be free for unemployed individuals and under-employed freelancers.

The shows will be carried out in accordance with safety protocols and in compliance with current regulations, and functions may be postponed based on the epidemiological situation.
