

The Formentera Office of Culture reports that this Thursday 17 February at 4.30 pm, the Reading Point (Punt de Lectura) at the Espai Cultural in Sant Ferran will play host to "La pingüina viatgera", a storytelling session for children ages 2 to 7.

Cristina Brunet, an artist from La Fornal d'Espectacles, will tell the story of Serafina, a penguin who decides to leave Antarctica to see the world. She joins some passing sailors and, on their way, they encounter a strange island made of debris. On her adventure, Serafina will meet two friendly monsters who will help her build a balloon to continue her journey. The little girl travels round the world, passing through cities, forests and deserts, and getting to know its inhabitants and their peculiarities.

In a roundabout fashion, the story-time highlights the importance of taking care of the world we live in but avoids moralism, presenting instead a fun and carefree point of view.
